

JET -2018 SCORECARD & RESULTS

NOTE: In response to some queries received, it is clarified that the percentage reflected in the percentile column in JET 2018 score card has been calculated as under:

$$100 \times (\text{Marks secured by a candidate in a particular specialization}) / (\text{Marks of Topper of that particular specialization})$$

In addition to the above, relative performance of a candidate refers to percentage of candidates who receive scores less than or equal to the score obtained by the candidate in the specialization.

To access this additional information, candidates may like to download their scorecards to know their relative performance
